### 📘 Course Information

#### Catalog Description

Laboratory experiences to complement BIOL 326. Additional lab fee applicable to main campus day offerings.

**Prerequisites:** C or better in BIOL 110L and BIOL 223L; C or better in BIOL 326 or concurrent enrollment.

#### Additional Notes

**Attendance Policy:** All students are expected to attend each class period as assigned. When you miss class, you miss important announcements, directions and assignments. If you come in late, the same applies. I will not interrupt class to get you caught up.

**Late Work:** I usually do not accept late work. I do understand that there are circumstances that will allow you to turn your work in late. These will be assessed by me and given at my discretion. If there is an in-class assignment that you miss (except approved absences) you will not be allowed to make those up.

**Absences:** Excused absences are reserved for special circumstances, like a death in your family. You must notify me ASAP about the situation. Unexcused absences are for things such as feeling too tired to come to class. Missing a week of class may make it impossible for you to successfully complete this course.

**Cheating or plagiarism:** Your work must be your own work. Not the work of your classmate, the internet or friends. If you are caught cheating, you will get an automatic zero for that assignment and I will contact the appropriate persons at the college.

**Exams:** All exam dates are solid dates, meaning that they are not moved around. When we have exams, you need to be in class at the time of class and make ups are rarely given. If you miss an exam you must notify me PRIOR to the class period and I will decide if you will be allowed to make it up.

### Course Policies and Procedures:

#### Attendance Policy

Columbia College students are expected to attend all classes and laboratory periods for which they are enrolled.

For classes with an online component, attendance for a week includes submitting any assigned online activity. Assigned activities are scheduled prior to the course commencing. Assigned activity due dates are subject to change based on actual course progression and will be adjusted as necessary. Attendance for the week is based upon the date work is submitted. A class week is defined as the period of time between Monday and Sunday (except for week 8, when the work and the course will end at 11:59 PM Central Time on Saturday.) The course and system deadlines are based on the Central Time Zone.

Students are directly responsible to instructors for class attendance and work missed during an absence for any cause. If absences jeopardize progress in a course, the College reserves the right to drop or withdraw students from classes. For additional information, see the Administrative Withdrawal for Non-Attendance heading in the [Withdrawal Policy](#).

#### CougarMail

All students are provided a CougarMail account when they enroll in classes at Columbia College. You are responsible for monitoring email from that account for important messages from the College and from your instructor.

Students should use email for private messages to the instructor and other students. The class discussions are for public messages so the class members can each see what others have to say about any given topic and respond.

### Late Assignment Policy

All classes rely on participation and a commitment to your instructor and your classmates to regularly engage in the reading, discussion and writing assignments. You must keep up with the schedule of reading and writing to successfully complete the class.

No late assignments will be accepted without the prior approval of the instructor.

Acceptance of a late assignment is at the discretion of the instructor.

Make-up examinations may be authorized for students who miss regularly-scheduled examinations due to circumstances beyond their control. Make-up examinations must be administered as soon as possible after the regularly scheduled examination period and must be administered in a controlled environment.
